INGREDIENTS:
• 2 cups plain soymilk
• 1/2 cup water
• 1 1/2 Tbsp. agave nectar
• 2 (1/4 oz.) packages active dry yeast
• 3 - 4 large curly kale leaves
• 1 cup white whole wheat flour
• 5 - 5 1/4 cups all-purpose flour
• 2 Tbsp. soy flour
• 1/4 cup wheat germ
• 2 Tbsp. ground flax seed
• 2 Tbsp. vital wheat gluten
• 1 Tbsp. fine sea salt
• 1/2 cup crumbled goat cheese
• 1/2 cup chopped green olives
• 2 Tbsp. soy oil or vegetable oil
• 1 egg plus 1 Tbsp. water for egg wash
• 1 clove fresh garlic, grated
• 1/4 cup salted butter, melted
• 2 Tbsp. minced, fresh chives

PREPARATION:
Heat soymilk, water, and agave nectar to 110°F, add yeast and wait for mixture to foam, 5-10 minutes. De-stem kale and shred, making 2 cups loosely packed. Massage kale until soft.

In a stand mixer with dough hook, combine kale, flours, wheat germ, flax, gluten, salt, cheese, and olives. Stir in yeast mixture and oil, mix 3 minutes on medium speed. Knead dough 4-5 minutes to form a soft dough, gradually add remaining 1/4 cup flour, if needed. Place in greased bowl, cover, and let rise until size doubles, 1-1.5 hours.

Deflate dough and shape into two round loaves; place on parchment-lined cookie sheet. Make slashes across top and cuts around edges. Cover; let rise until doubled, about 40 minutes.

Preheat oven to 425°F. Pour 1 1/2 cups hot water into pan on bottom rack before baking. Brush loaves with egg wash. Bake loaves one at a time. 30-35 min. on middle rack until center is about 200°F, rotate cookie sheet halfway through.

Combine garlic, melted butter and chives, and brush on warm loaves. Serve remaining with bread. Makes 44 servings.

### Cooking with Soyfoods

**Tofu:** extra-firm replaces meat protein in recipes such as grilled kabobs and sandwiches, or use soft or silken in place of mayonnaise and sour cream in creamy dishes, such as soups and dips.

**Edamame:** serve these green soybeans in the pod for an appetizer or add to dishes, such as chili or stir-fry, for protein-packed flavor and texture.

**Soymilk:** ideal for beverages such as smoothies and lattes, over cereal and in cooked dishes, such as puddings or custards.

**Dairy alternatives:** a wide range of dairy-free products are available, including soy-based "yogurt," "cheese," and frozen desserts.

**Soy crumbles:** perfect for chili, spaghetti sauce, and tacos, this "veggie ground" contains 75% less fat than ground beef.

**Soy flour:** improves taste and texture and elevates the nutrition profile when mixed with wheat flour.
